

NOTICE

Deuel County is responsible for the maintenance and control over its property in Deuel County, including the right-of-way appurtenant to all county roads. By State Laws SDCL 7-8-20(2) and 31-18-2, cropping or breaking up of the ground, or fencing within the county right-of-way for farming is prohibited.

The Deuel County Highway Department will be checking to ensure that all county right-of-ways have been restored back to grass this fall. Any person not in compliance with this directive and found in violation of State Laws SDCL 7-8-20(2) and 31-8-2 will be subject to prosecution by the State's Attorney.

The purpose of the State law is to prevent deterioration of county roadbeds, which may result in unsafe and dangerous road conditions, interfere with vehicular travel and increase county repair expenses.

Jamie Hintz, Deuel County Highway Superintendent
