Mr. Gary Hoffman spoke on his own behalf for Western Land Trust via phone on the listed appeals. The records above are all bare land appeals. Hoffman had several questions on various records: record #997; Hoffman stated he thinks the value of the acreage is not in line; on record #243 he says in the NE1/4 30 acres of that property is lake land, is under water and has always been that way; on record #1029 at least 23 acres of grass waterway that he can't do anything with; overall average on that parcel is \$2,025 per acre; probably 19.3 acres of non-crop; would feel better if allowed grassland off and just took tillable acres. Director Rhody said she has to access property to middle of the road and every property in county is assessed to the middle of the road; waterway is the land below the water and all are accessed the same throughout the county; Hoffman said he would like to see the value at \$170 acre in waterway area.

Director Rhody recommended no change on above listed properties as they are being assessed like similar properties. 9) Dumke moved, seconded by Commissioner Rhody to take recommendation of Director of Equalization, no change to assessment of record numbers 5660, 5661, 5662, 1029, 1055, 1115, 1449, 1336, 1643, 243, 245, 1334, 5674. All voted yes and motion carried.
